

School Curriculum

for Grade Level 2

for the Subject of **English**

Advanced Level

1. The curriculum for English as a subject:

The curricula for English were devised by the English Department of the Elementary School of the German International School Washington D.C. (GISW)

2. General remarks for Grade Level 2

English instruction at the GISW is not comparable to English instruction at an elementary school located in Germany. This curriculum has been developed over several years with the collaboration of multiple language teachers, linguists, and pedagogues. Teachers and students find themselves in a unique situation at the GISW, as they cannot strictly rely on an established English language curriculum from Germany, nor from the United States. The following characteristics were of significance for the creation of this curriculum:

- English speaking environment
- frequently an English speaking household
- frequently a multilingual household with multilingual learners
- consideration for German as a primary language
- frequently new students from Germany with little or no prior knowledge of English
- frequently highly motivated students
- mostly very supportive parents
- frequently above-average students
- ambitious parents, who expect rapid improvements
- instruction time: four hours per week in Grade 2

New students are placed initially in the Entry/Intermediate Level (EL). The English teacher of this level evaluates new students for up to one week. The result of an oral and written assessment will determine if the student will remain at the EL Level, or if the student will be placed into another level of English. Successful learning of the English language takes place at all three course levels. When placing students, other important pedagogical aspects are also considered.

3. Additions specific to the school and students

- Instruction in Grade 2 offers inner and outer differentiation. The three courses overlap and create a seamless learning structure which benefits every student.

Entry/Intermediate Level (EL), Intermediate/Advanced Level (IL), Advanced Level (AL)

4. Introduction to the Curriculum of Advanced Level 2

English at the GISW is taught predominantly in the host country's language. The three courses offered accommodate learners from every background. They are: **Entry/Intermediate Level, Intermediate/Advanced Level, and Advanced Level.**

The first level of the three courses is for emergent learners of English, the second level for native and non-native speakers who have a solid grasp of the language, and the third level is for native and non-native students who have reached a high level of competency.

Since the three courses run parallel throughout the week, newcomers will be placed in one of the levels on a trial basis until the most appropriate level is established. For enrolled students, **transition** to a higher level course may take place twice a year, after careful evaluation, following each grading period in January and June.

The following contains the **curriculum for the Advanced Level.** (Please note that there is a **separate curriculum** for the Entry/Intermediate and Intermediate/Advanced Level.) This is developed for native and non-native speakers of English whose families have settled in the Greater Washington, D.C. area. Students at each grade level must demonstrate oral and written fluency, as well as superior levels of reading comprehension. All advanced courses are taught exclusively in English.
